Philip "Phil" Wilson

# Why is it important to update my member information?

## Update your phone number

You can take steps today to help C & L Electric Cooperatives restore your power more quickly the next time you have an outage. Your phone number is used to look up your account record when you call to report an outage. Your account record is verified against your 911 address and entered into our computer system, which sorts outage calls by location. This frees up our dispatchers to assist service personnel in locating the source of the outage and helps us restore your power more quickly!

## Update your email address

Updating your email address helps C & L Electric quickly inform our members of upcoming planned outages, rights-of-way work in your area or other important information.

Update your C & L account information through our website at [clelectric.com/update-member-info](http://clelectric.com/update-member-info) or complete the form below and return to:

C & L Electric Cooperative Corp.  
P.O. Box 9  
Star City, AR 71667

CORPORATION

**C & L Electric will be closed Dec. 25-26 for Christmas and Jan. 1 for New Year's Day.**

# Holiday Tree Safety Tips

Ensure a merry and bright holiday season by safely maintaining your tree with the following tips.

## Inspect lights:

Carefully inspect all electrical decorations before you use them. Cracked or damaged sockets and/or loose or exposed wires can cause serious shock or start a fire.

## Examine cords:

Examine extension cords and lights for signs of damage. Frayed electric cords should be discarded.

## Keep away from heat:

Make sure your tree is at least three feet away from any heat source, like an air duct, fireplace or space heater.

## Keep it watered:

Fill the water reservoir daily and check the condition of the trunk bark and branches for moisture. Shedding or dry needles could mean the tree is drying out, increasing overall fire risks.

## Trim the stump:

Trim the tree's stump by at least two inches on freshly cut trees. Allow it to absorb water for 24 hours before bringing it inside.
